

TALL Education Committee – Report for 2020 AGM

Chair: Catherine MacGregor

The Education Committee organized four lunch and learn sessions over the last year. Unfortunately we had to cancel Part 2 of the Securities Law session, due to circumstances beyond our control. We will try to reschedule this one again.

In January, several staff from the Leg spoke on OLA Library Services, including how to locate and access catalogue materials and covered changes to the content and navigation of the Legislative website.

Tax Research, Part 2 was held in February and hosted by Kathryn Kingston from PwC and Katie Thomas from Stikeman.

In April we moved what had been planned as an in-person session online and heard about the latest updates from CanLII and Lexum with Xavier Beauchamp-Tremblay and Pierre Paul Lemyre.

Finally, we held a session on Working from Home in May in which we talked about the challenges and opportunities of operating a law library remotely and shared tips on coping with these strange new times.

The Committee is looking forward to bringing you more education session, remotely of course, in the upcoming year.
