

The CALL /ACBC Salary Survey was, in 2019, a joint initiative of both CALL /ACBD and TALL

The most recent Salary Survey was published in 2019 based on data from 2018. There were two Reports published. One was Toronto specific and the other was more general to CALL/ACBD across the country.

Traditionally, the Salary Survey Reports have been published every two years if possible. This would mean the next set of survey data should be collected this year 2020!

I anticipate that data could and should be collected in 2021.

The next iteration will be fairly seamless. We laid the groundwork in 2018 and would only need to follow our previous templates.

If any members are interested in participating in this worthwhile Committee please contact Katie Thomas. As this is a joint initiative it provides for great collaboration across the country.

Respectfully submitted.

Katie Thomas
